A THREE-DAY IMMERSIVE LEADERSHIP DEVELOPMENT OPPORTUNITY.

This engaging hands-on experience is designed for students and includes a series of leadership development workshops, local immersion visits, international exchange partners, community service and group projects. The academy will focus on one challenge question throughout the three day experience: "How do we Collectively Take Action on the UN Sustainable Development Goals to Transform our World, Campuses and Global Communities?" By engaging in this experience, students will develop and connect with one another across differences in order to solve complex real-world challenges,

Food and transportation are provided during the experience. Housing is available at the University at Albany.

To learn more or prepare to send a delegation of students, visit: sunysail.org or contact Merissa McKasty, Leadership Development Manager at Merissa.McKasty@suny.edu

"Amazing. This was genuinely one of the best experiences of my life, it was a great atmosphere and I feel like I got to know so many different types of people. I definitely made connections that will last."
